

KINDERGARTEN SUMMER LIBRARY CARD

INSTRUCTIONS: Print out copies of this Summer Reading card for each of your students. Cut along the lines, and you can laminate it so it feels like a real library card. Students are encouraged to visit their local library and take out the titles on this reading list, reading each book over the summer months and punching out the hole (or filling it in) when they have finished a book. They can bring their completed cards back to school in the fall for a small reward - collaborate with other teachers to print out Summer Reading Bookmark Rewards.
