## MARBLE GLITTER CANDLE

### Materials:

- Glass votive candle holder
- Votive candle
- Marbles
- Glitter
- White glue
- Paper plate
- Paint brush

### Directions:

Take a clean glass votive holder, and either dip the edges into a puddle of white glue on a paper plate, or paint the edges with white glue. Sprinkle glitter over the edges (or dip directly into a small pile of glitter on a paper plate). Paint a line of glue around the top of the candle, and sprinkle glitter over the candle, turning it while sprinkling, over the paper plate. When the glass votive has dried, fill it halfway full with marbles. Secure the candle in the middle of the marbles.
