

Pumpkin Math

1. How many lines does your pumpkin have? _____
2. What is the height of your pumpkin, from bottom to tip of stem? _____
3. What is the height of the stem itself? _____
4. What is the circumference of your pumpkin at its widest girth? _____
5. How much does your pumpkin weigh? _____
6. How many seeds do you estimate are in your pumpkin? _____
7. How many seeds does it actually have? _____

Optional:

- Make a class graph displaying weights of pumpkins; compare heaviest, lightest, average
- Make a similar class graph displaying circumferences and heights
- Think of a game to play with pumpkin seeds
