Fold each paper in half horizontally, with the blank side facing inward, and the lower right corner remaining in the same position when folded in half horizontally. Now fold each paper vertically, with the bottom right corner becoming the first page in each instance. Insert the 2nd folded page into the middle of the 1st folded page; all page numbers should be in order from 1-8. Staple in the middle, or punch two holes through the middle of all and tie a ribbon or string through and securing. Have students read & follow directions to color.
