

A. INTRODUCTION

Do you know where milk comes from? Cows, right? But how does it get from the cow, to the grocery store, and to you? You will learn all about both cows and milk by reading the material at the sites below. Use only the websites listed. Answer the Student Questions based on what you have read.

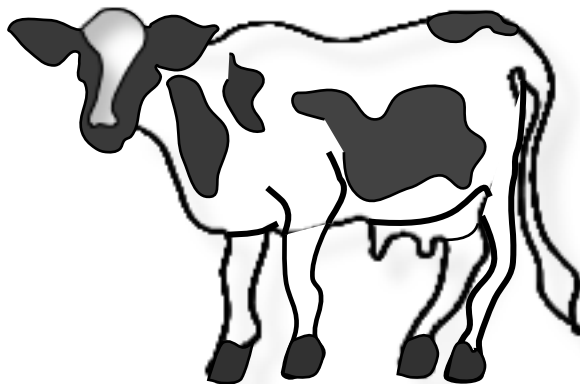

B. RESOURCES

VIRTUAL TOUR ON THE STORY OF MILK:

<http://www.moomilk.com/tour.htm>

ALL ABOUT COWS:

<http://www.kiddyhouse.com/Farm/Cows/>

C. STUDENT QUESTIONS

1. What do cows eat that you eat as well?

2. How much do cows eat daily, and up to how many times a day are they fed?

3. How much do cows drink each day?

4. How many different "compartments" do cows have in their digestive systems?

5. What is "colostrum"?

6. What is an "udder"? What is it used for?

7. How much milk can a milk cow make each day?

8. How is milk protected when it's carried or transported on milk trucks?

9. What does "homogenized" mean?

10. What is "pasteurization"? What does it do?

11. Use the 2nd link above, "All About Cows" to make up some Cow Fact Cards. Your teacher will tell you which cards to use.
