

# FROG WORDSEARCH PUZZLE!

Fill in the missing word for each of the frog clues below, and then find those words in the wordsearch below. Good Luck!

1. A young frog, not fully formed, is called a \_\_\_\_\_.
2. A female frog lays these, and the male frog fertilizes them when mating: \_\_\_\_\_.
3. A tadpole uses these to breathe: \_\_\_\_\_.
4. A \_\_\_\_\_ is similar to a frog, but has rough, dry skin instead of smooth skin.
5. Some people think if you kiss a \_\_\_\_\_, it will turn into a \_\_\_\_\_!
6. Frogs like to hang out in this kind of wet habitat, where you can often find lily pads, stones, and fish as well: \_\_\_\_\_.
7. A frog is classified not as a mammal, not as a reptile, but as this kind of animal: \_\_\_\_\_.
8. Frogs generally eat a lot of these: \_\_\_\_\_.
9. Frogs make this kind of sound: r \_\_\_\_\_ t, or a c r \_\_\_\_\_ k.
10. Frogs have a backbone, so they belong to the \_\_\_\_\_ group of animals.

Once you have answered all of the clues, go on to page two to find all of the words you wrote in the blanks above.
